1. Attached is a copy of subject proposed publications as transmitted to the Deputy Director (Support) for authentication for publication.

2. During the final coordination of the publications, a number of editorial changes and minor revisions were suggested by Council Members, the General Counsel, and the Comptroller. These have been incorporated into the final drafts. In the opinion of this Office, the changes made without exception do not conflict with the policy and procedures agreed to during the Council meeting; however, if you have any objection to any of the revisions, please notify the undersigned so that appropriate action may be taken prior to the printing of the publications.
